## BROTHER SCAN AND CUT VINYL CUTTER

## HOW DO I USE IT

### HOW TO USE:

Our Brother Scan and Cut machine has a built-in high-resolution scanner that scans virtually anything to create endless one-of-a-kind cut designs and patterns that can be saved to the machine. Use the touchscreen and choose your design to print and cut on a variety of materials.

Troubleshooting: <https://www.brother.co.nz/sewing-craft/support/fixing-common-scanncut-problems>

### ARE THERE ANY COSTS?

There are no costs associated with this equipment if you provide all the resources. Vinyl sheets may be available to purchase from the library.

### HOW DO I BOOK IT?

No need to book. Just come down to the Ōtorohanga Makerspace area and ask our friendly staff for the scan and cut vinyl cutter. You can also email [library@otodc.govt.nz](mailto:library@otodc.govt.nz) for more information.
